

the Sôgmô's Constitution Project

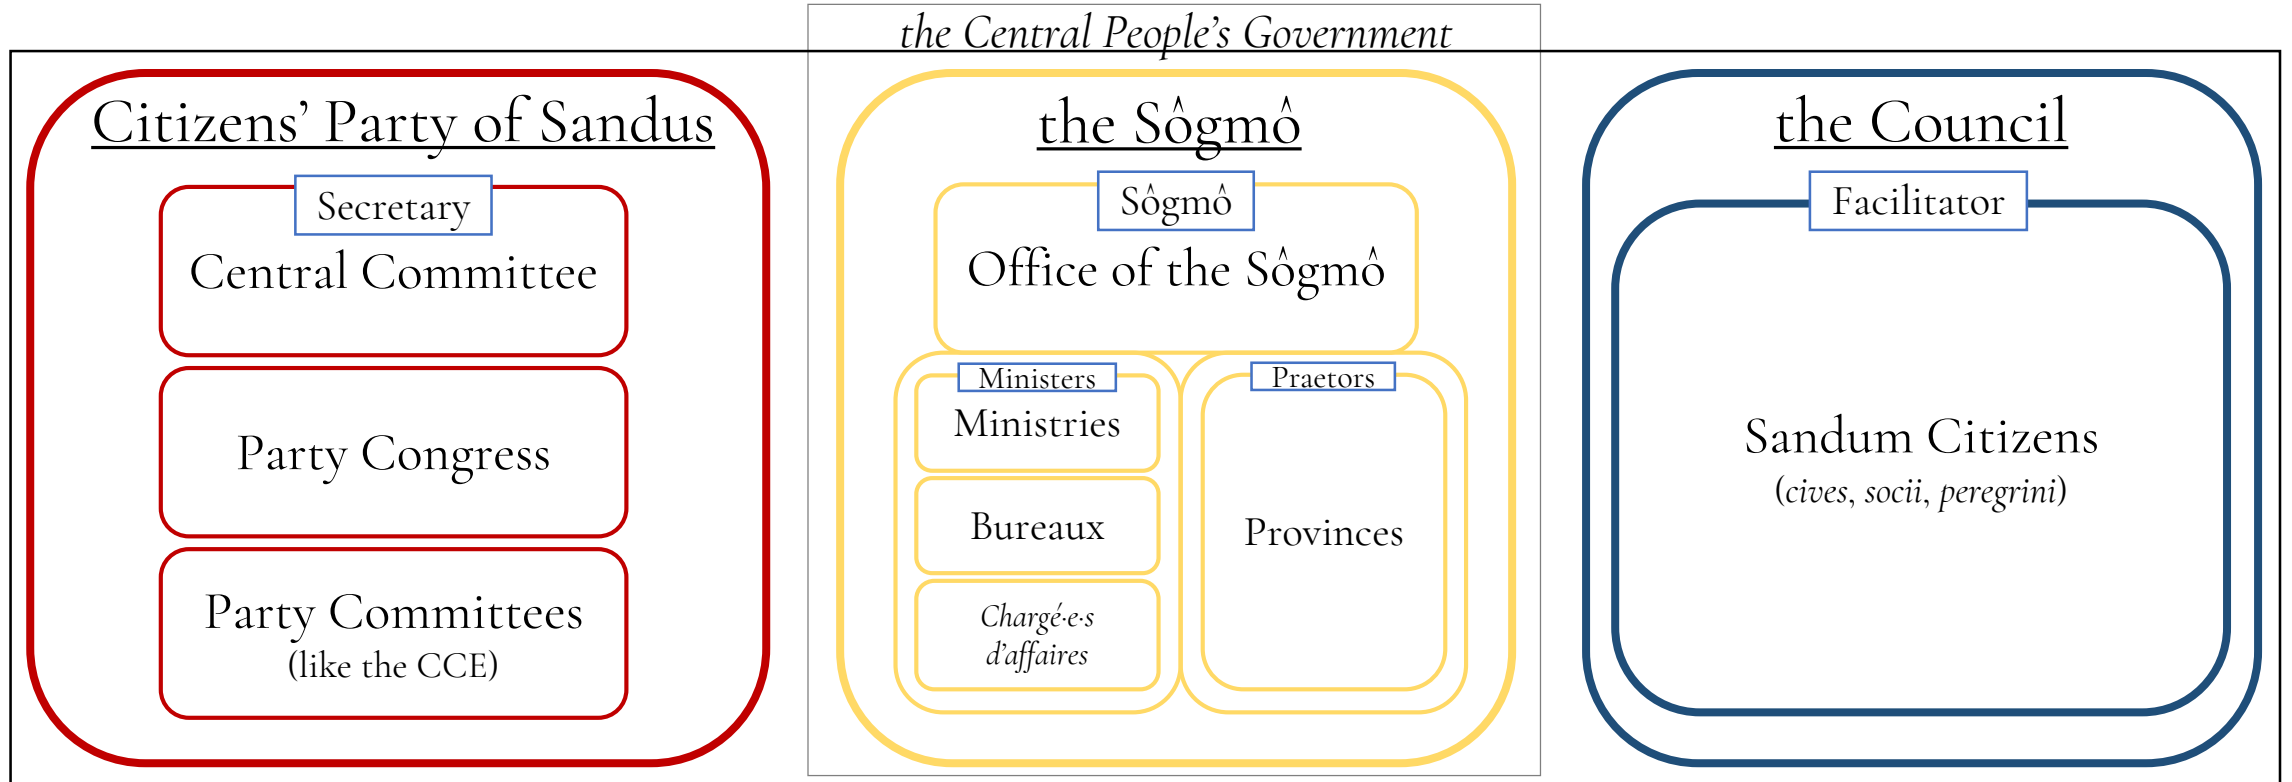

Explaining How Our Republican Constitution Works

Office of the Sôgmô
from January 2019

Overview of the Project

- The Sôgmô's Constitution Project is a media project to educate Sandum citizens and non-citizens on how our unwritten, republican constitution is ordered and operates.
- It was established by the 2016 *Philia Plan for the Major Societal Shift*, a plan drafted by the Sôgmô and approved by the Citizens' Party of Sandus.
- This installment of the project features seven graphs on: the three branches of our government and the *<incomplete>* division of powers between the three branches; how the election process for an heir works; how the Sandum command economy operates; the organs under the jurisdiction of the Office of the Sogmo; and the Sandum Table of Noble Ranks.
- Future installments of this project will add more detail to the picture of our unwritten constitution. As Sandus grows older and our constitution grows and changes with time, newer and updated graphics will continue to tell the story of our constitution.

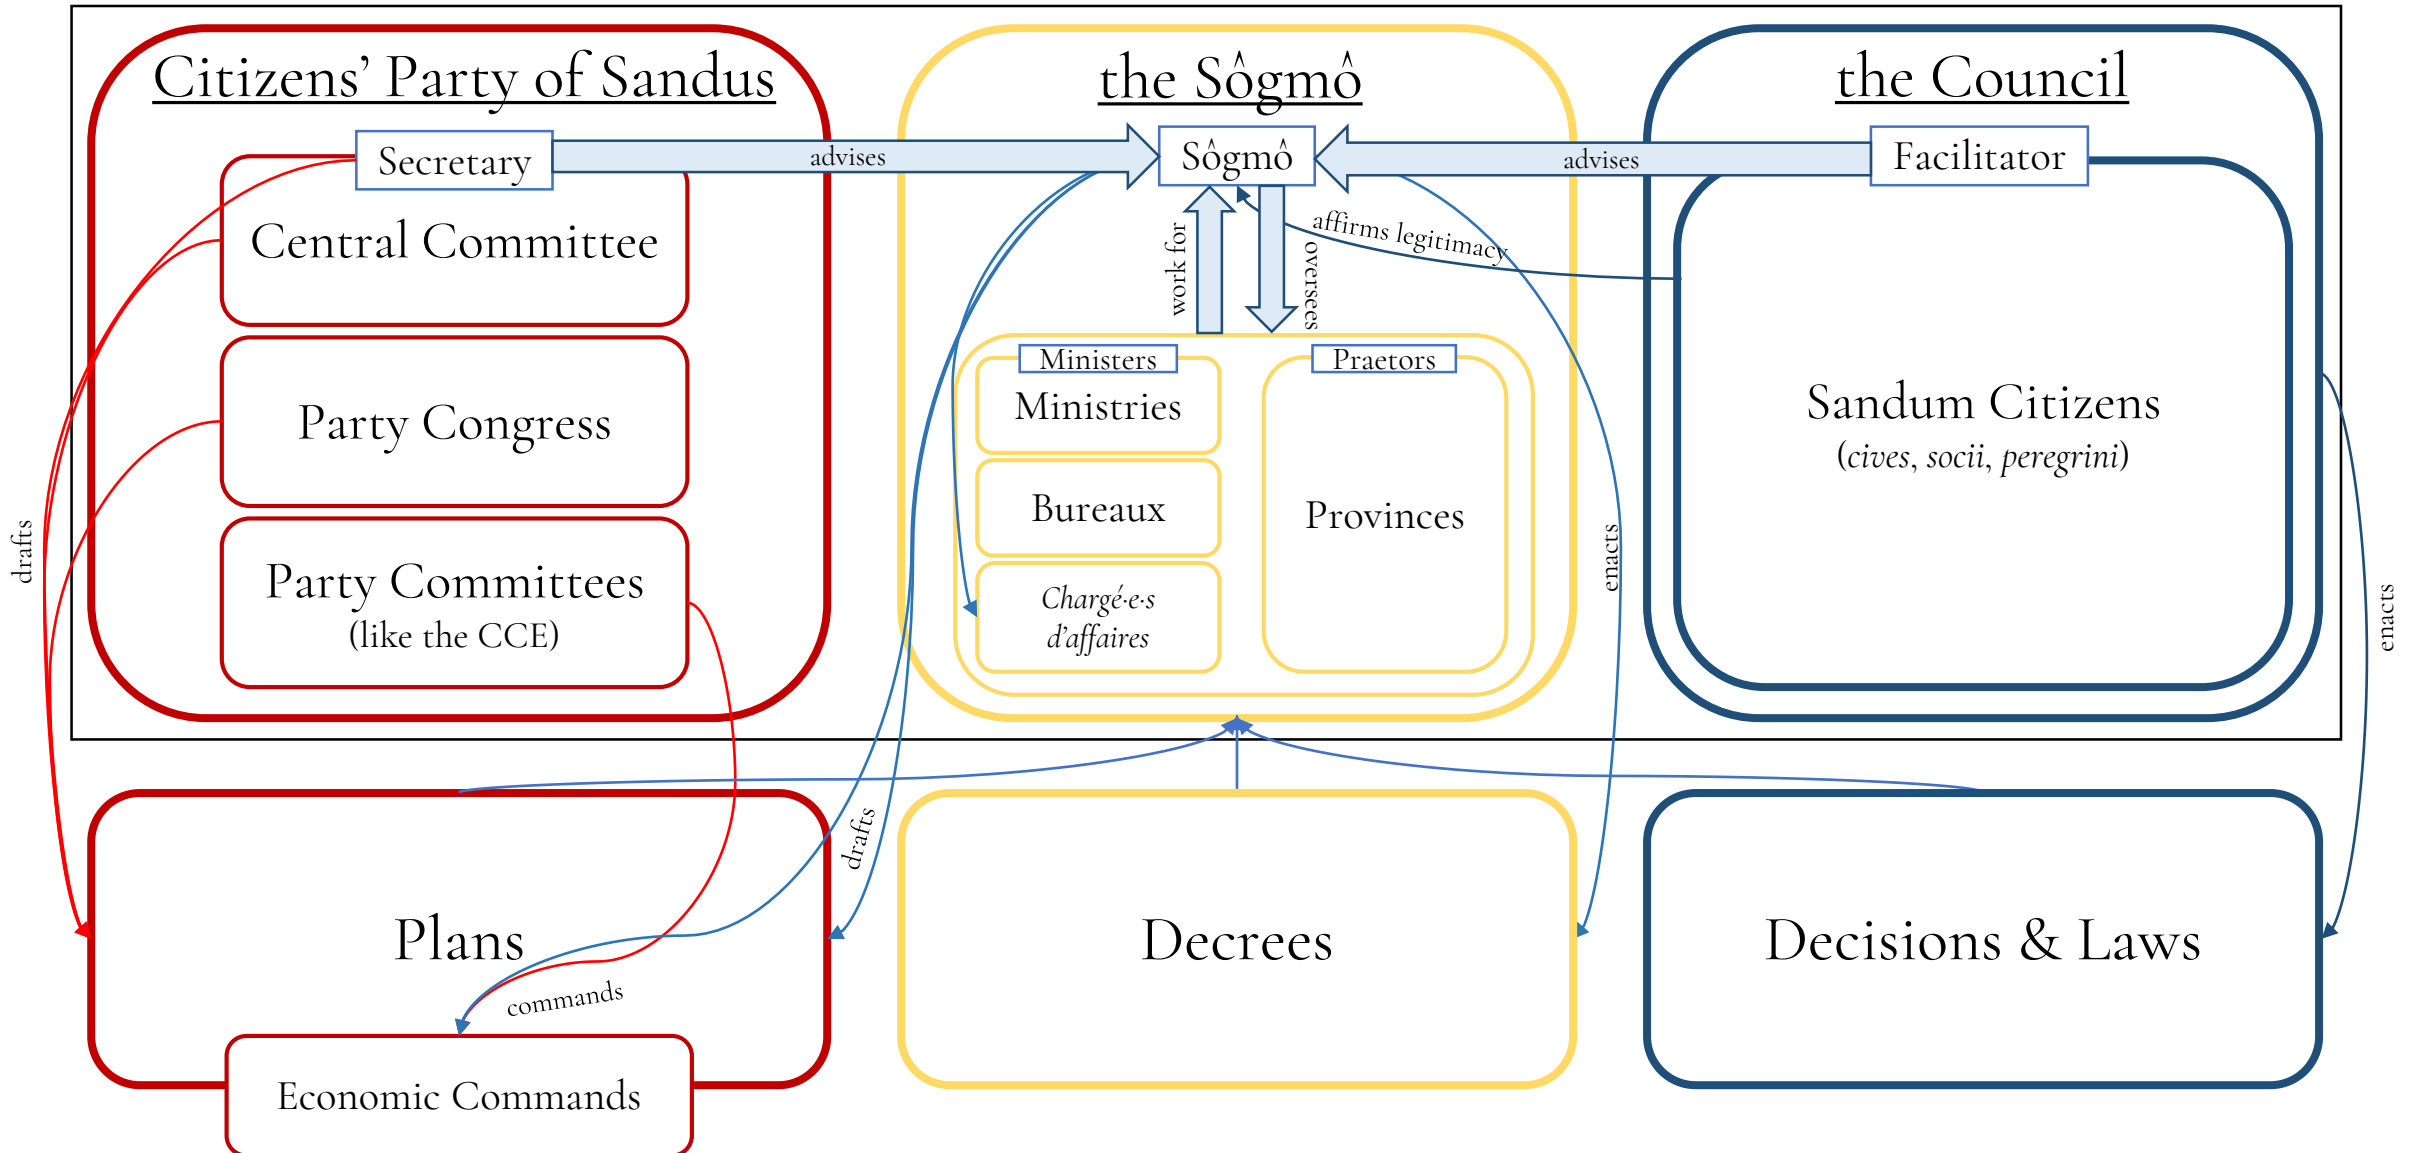

Our Republic's Three Branches

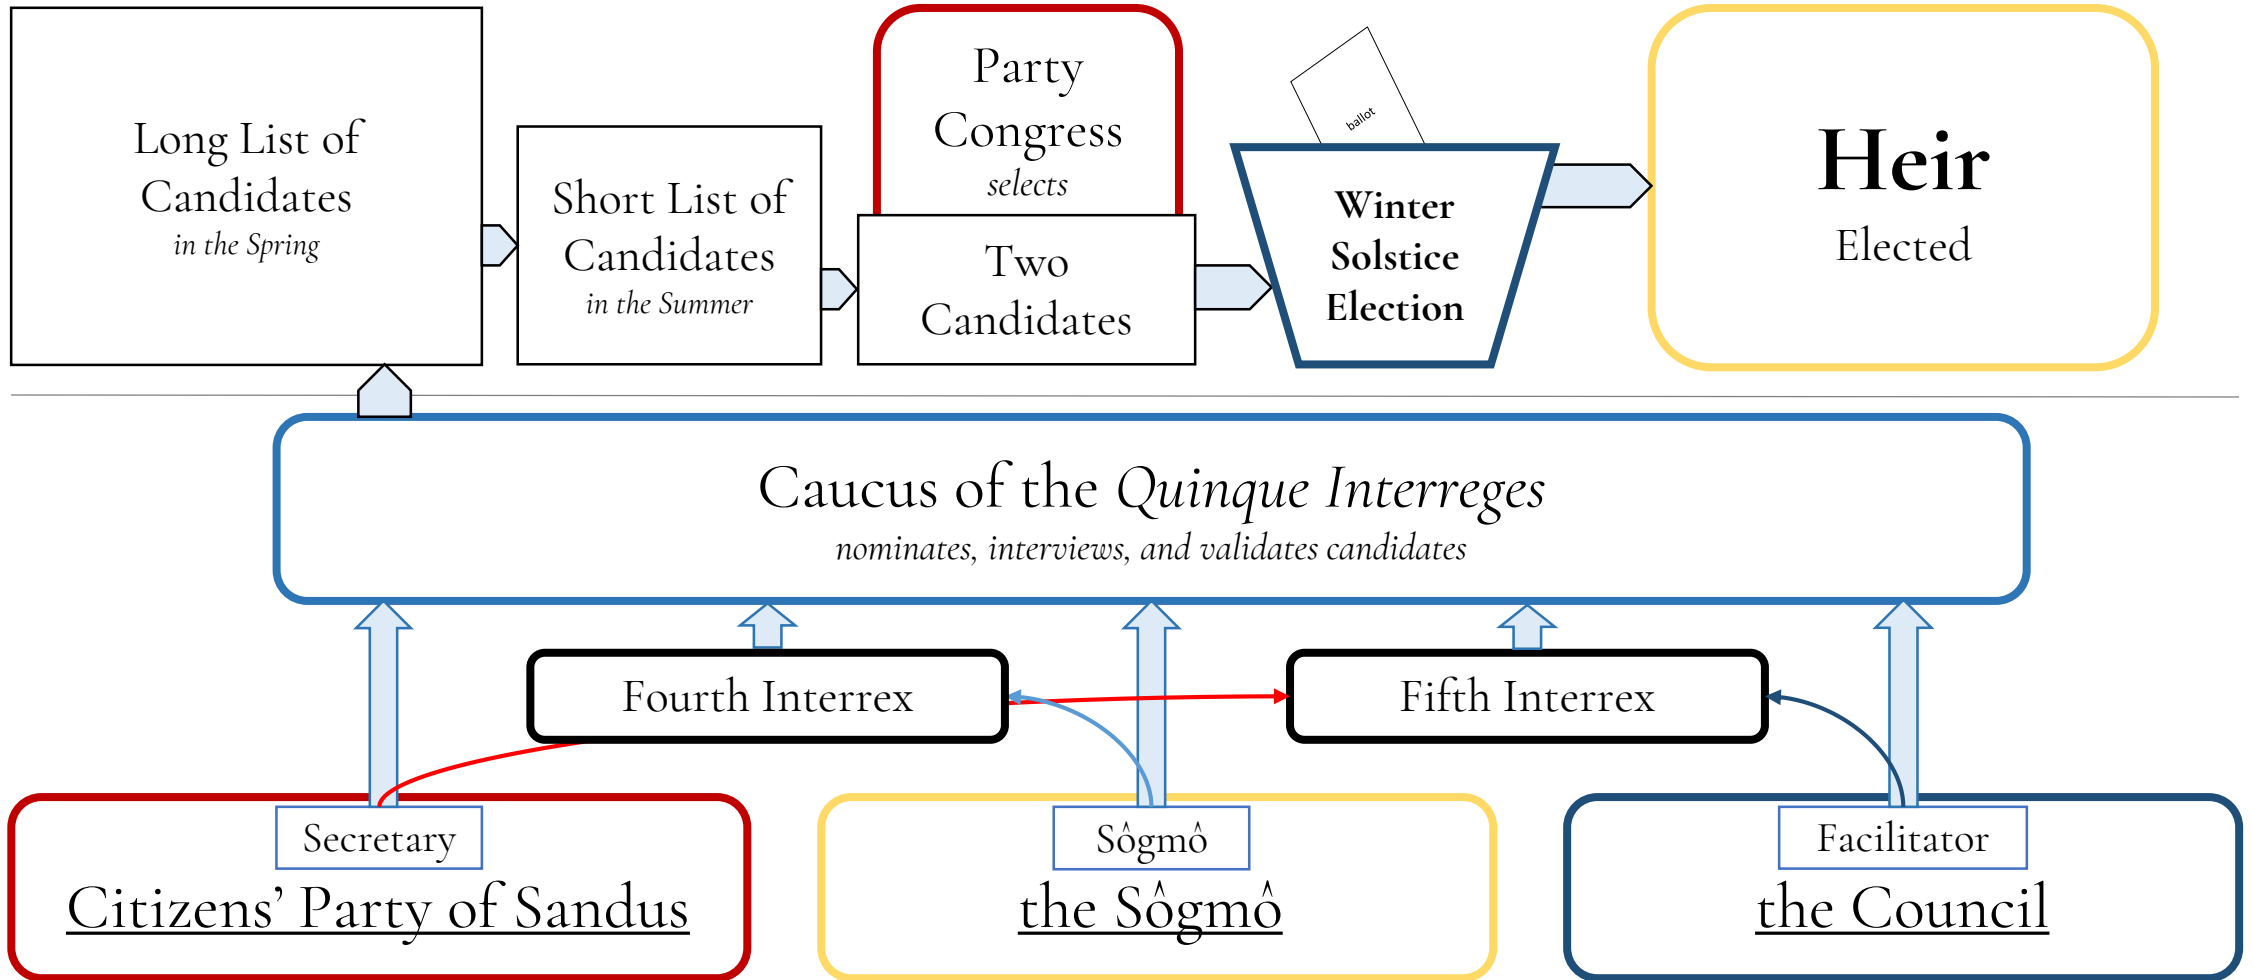

the Senate

an emergency body comprised of leaders
from each *gens* or house

the CPG & its Division of Powers

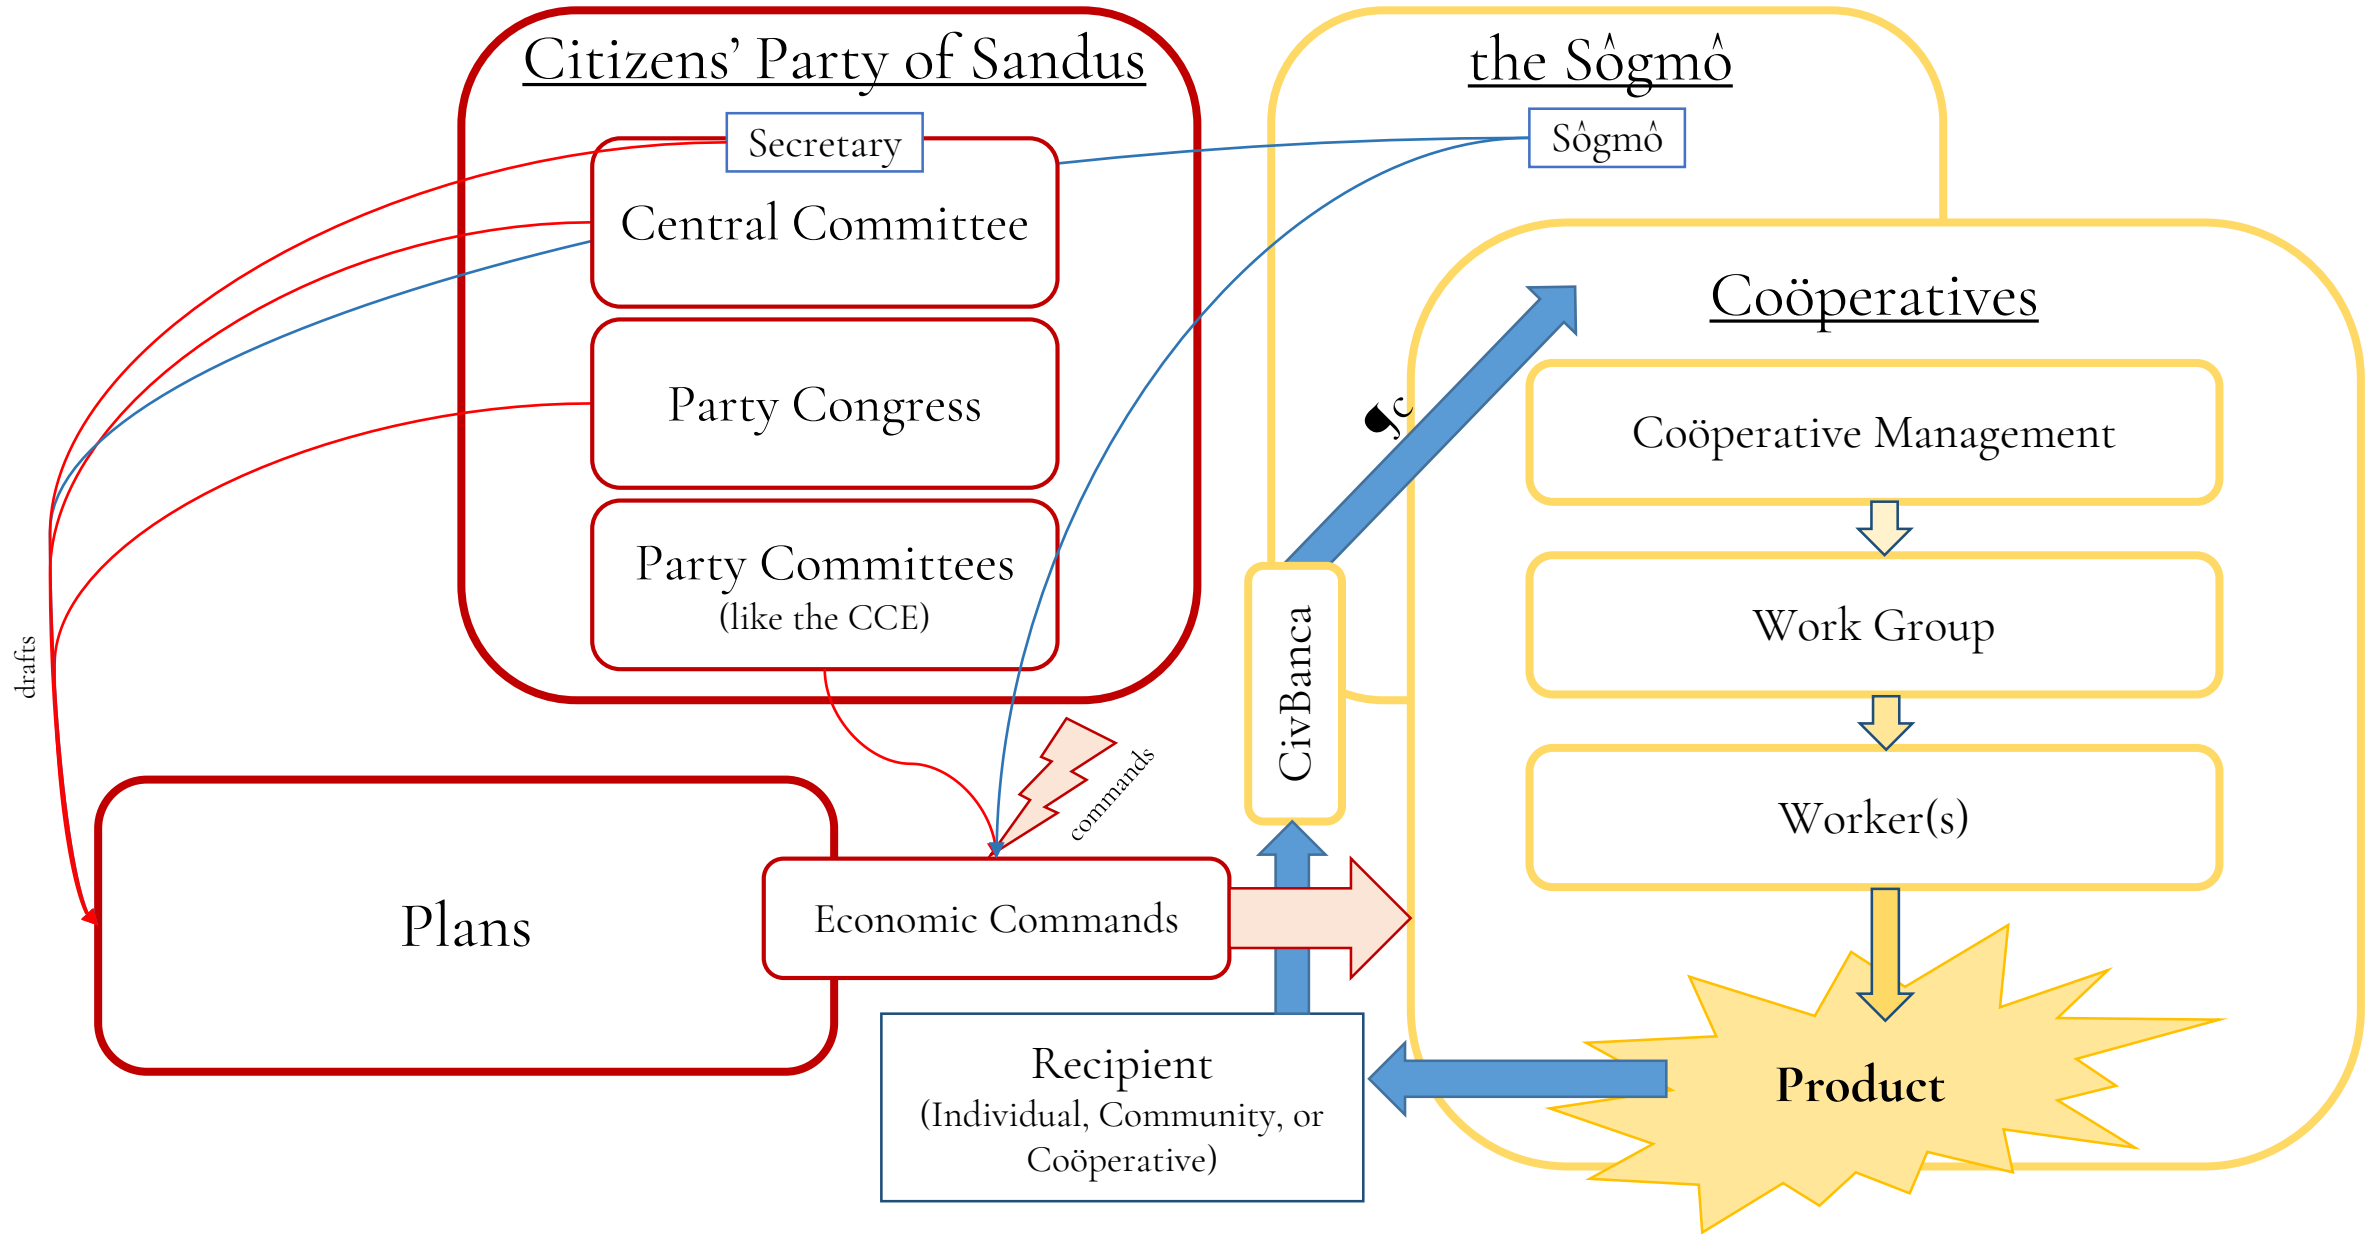

the CPG & the Heir Election Process

the CPG & the Command Economy

How does the Command Economy Work?
